

For noting

Item 13: S106 funding application by The Coddendam Centre

The Coddendam Centre (TCC) has applied for S106 funding as part funding to replace the surfacing of its two all-weather tennis courts, which are at end of life. It will also enable the courts to be used for netball and pickleball. The total cost is £34,500. A request has been made to B&MSDC for a community development grant of £20,000, with the remainder to be provided from Coddendam's S106 reserve. If the community development grant application is scaled back, then TCC has asked that the difference is made available from S106. There is no reason to believe that this will happen.

As requests for S106 funding are to be notified to the parish council, the above notification is for minuting at the meeting to be held on 3rd September 2025.

Cllr Mills
